### SUMMARY

Detail-oriented Python/Full Stack Developer and BCA Student with hands-on experience in building scalable full-stack web applications, REST APIs, and database-driven solutions. Proficient in Python, Flask, JavaScript, and PostgreSQL/Supabase, with a proven track record of developing secure e-commerce platforms and automated administrative systems. Eager to leverage strong problem-solving skills and technical expertise in a software development internship or entry-level role.

### PROFESSIONAL EXPERIENCE

#### Google Developer Student Ambassador

##### Google

📅 Dec 2025 - Present 📍 Ahmedabad, India

- Organized technical workshops and developer events, engaging 200+ campus students on Google technologies and open-source initiatives.
- Served as primary liaison between Google and the academic community, raising awareness of cloud learning pathways.
- Facilitated technical peer-mentoring sessions, guiding students in web development fundamentals and database architecture.

#### Data Analytics Intern

##### IBM SkillsBuild

📅 Jul 2025 - Aug 2025 📍 Virtual

- Completed intensive 30-day program on "Decoding Data: Insights & Impact through Analytics", gaining expertise in data modeling.
- Analyzed large datasets using Python and SQL to identify key trends, and engineered interactive visualizations.
- Collaborated with team members to deliver data-driven analytical insights, presenting solutions with high-quality storytelling.

### ACADEMIC PROJECTS

#### AuraShop - Premium Full-Stack E-Commerce

##### Flask, PostgreSQL, Supabase, AJAX, JavaScript, Razorpay API

🔗 auroshop.onrender.com 📌 Academic Project

- Architected and built a responsive e-commerce web app utilizing Python, Flask, and PostgreSQL integrated via Supabase REST API.
- Implemented custom AJAX shopping carts, secure session-based authentication, and a robust role-based Admin dashboard and AI based product discription with products suggestions
- Integrated Razorpay payment gateway API for secure dynamic transactions and automated PDF invoice generation.

#### Smart College Management System

##### Flask, PostgreSQL, JavaScript, Bootstrap 5, Razorpay API

🔗 college-managementd.onrender.com 📌 Academic Project

- Developed a comprehensive portal with role-based dashboards (RBAC) for Admins, Faculty, Students, and Accountants.
- Engineered dynamic QR attendance tracking with time-limited token generation and device/IP logging also Auto Generate Enrollment Number.
- Integrated automated semester fee tracking, online payments via Razorpay API, and exam management modules also time table management and Digital id card generation.

### TECHNICAL SKILLS

#### Languages

Python, JavaScript, SQL (PostgreSQL, MySQL), Solidity, HTML5, CSS3

#### Frameworks & Cloud

Flask, Supabase, PostgreSQL, MySQL, Bootstrap 5, AJAX, GSAP

#### Tools & Developer Methods

Git, GitHub, Render, Cloudflare, RESTful APIs, OOP, RBAC

### EDUCATION

#### Bachelor of Computer Application (BCA)

##### K N University (CGPA: 8.4 / 10.0)

📅 May 2023 - May 2026 📍 Ahmedabad, India

#### Higher Secondary Education (HSC)

##### Hossana Mission School (Score: 70%)

📅 Completed: Apr 2023 📍 Ahmedabad, India

### STRENGTHS

#### 💡 Analytical Problem Solver

Experienced in identifying complex backend bottlenecks, writing robust SQL queries, and optimizing database logic.

#### ⚡ Quick Learner

Rapidly adapts to new technologies, frameworks, and tools, consistently delivering production-ready solutions in short timelines.

#### 🛠 Proactive Creator

Dedicated to building end-to-end full-stack web platforms and automating administrative workloads to elevate UX.

### PASSIONS

#### </> Full-Stack Craftsmanship

Driven by engineering elegant server architectures, fast APIs, and responsive, premium user interfaces.

#### 📖 Lifelong Learning

Enthusiastic about learning emerging cloud frameworks, Web3, and system designs to stay ahead of the curve.
